Professional Summary

Recent Computer Science graduate with practical experience in Data Science, Data Analytics, and Machine Learning through academic and industry projects. Skilled in Python, SQL, Power BI, Tableau, Excel, Machine Learning, Deep Learning, Data Visualization, and Statistical Analysis. Developed predictive models, interactive dashboards, and end-to-end data solutions using real-world datasets. Adept at data preprocessing, feature engineering, model evaluation, and translating analytical findings into business recommendations. Seeking Data Scientist, Data Analyst, or AI/ML Engineer opportunities to leverage analytical and technical expertise in solving complex business problems.

Experience

Data Science Intern

Jun 2025 – Feb 2026

AI Variant, Bangalore

- Developed machine learning solutions using Python, SQL, Scikit-learn, and TensorFlow, performing data cleaning, feature engineering, and exploratory data analysis on real-world datasets.
- Built a Stock Price Forecasting System using ARIMA, SARIMA, XGBoost, LSTM, and GRU models to analyze historical market trends and generate predictive insights.
- Designed and implemented an Online Course Recommendation System using recommendation algorithms to deliver personalized course suggestions based on user preferences.
- Created interactive Power BI and Tableau dashboards to visualize KPIs, communicate analytical findings, and support data-driven decision-making for stakeholders.

Projects

Stock Price Forecasting and Analytics Platform 🔄

2026

Tech Stack: Python, Pandas, NumPy, Scikit-learn, TensorFlow, XGBoost, Streamlit

- Developed an end-to-end forecasting platform using Python and Streamlit to analyze 7+ years of Apple stock market data and generate predictive insights.
- Performed data preprocessing, feature engineering, time series analysis, and model evaluation using ARIMA, SARIMA, XGBoost, LSTM, and GRU models.
- Optimized forecasting performance through hyperparameter tuning and comparative model analysis, achieving up to 24% lower forecasting error than baseline approaches.
- Built an interactive analytics dashboard with 10+ visualizations for trend analysis, volatility assessment, model comparison, and 30-day forecasting.

Bike Sales Analysis Dashboard 🔄

2026

Tech Stack: Tableau, Excel, Data Visualization, KPI Reporting

- Analyzed 1,000+ sales records to identify customer purchasing behavior, regional performance trends, and key revenue-driving segments.

- Designed an executive Tableau dashboard featuring 8+ KPIs, enabling real-time monitoring of sales performance, customer demographics, and profitability metrics.
- Generated actionable insights that identified high-performing customer segments and sales patterns, supporting data-driven marketing and business decisions.

Online Course Recommendation System

2026

Tech Stack: Python, Pandas, NLP, TF-IDF, Cosine Similarity, Streamlit

- Developed a content-based recommendation engine using Python, TF-IDF, and cosine similarity to generate personalized course recommendations.
- Processed and analyzed 3,000+ course records, performing feature extraction and similarity-based ranking to improve recommendation relevance.
- Built and deployed a Streamlit application that delivers instant personalized recommendations based on user interests and learning preferences.
- Improved course discovery through NLP-driven recommendation techniques, enhancing the user learning experience.

Skills

Programming: Python, SQL

Data Analysis: Exploratory Data Analysis (EDA), Data Cleaning, Data Preprocessing, Feature Engineering, Statistical Analysis, Data Visualization

Machine Learning & AI: Scikit-learn, TensorFlow, Deep Learning, Time Series Forecasting, Recommendation Systems, NLP, Predictive Modeling, Model Evaluation, Hyperparameter Tuning, Machine Learning Pipelines

Visualization & BI: Power BI, Tableau, Plotly, Matplotlib, Dashboard Development, KPI Reporting

Databases: MySQL, SQL Querying

Tools: Git, GitHub, Streamlit, Jupyter Notebook, Google Colab

Education

B.Tech in Computer Science Engineering

Vidya Academy of Science and Technology, Thrissur

APJ Abdul Kalam Technological University

2021 – 2025

Certifications

- NASSCOM Masters Program in Data Science – Gold (86%)
- Deloitte Data Analytics Job Simulation (Forage)
- ExcelR Data Science Programme – Certificate of Excellence
- Coursera Advanced Data Visualization
